Housing

Housing

Finding a place to live in the Netherlands can be challenging, but we can help you find a suitable home within your budget. We have partnerships with real estate agents and housing platforms to help you find the perfect place to call home.

To make your new home as homely as possible, we offer several packages in addition to arranging housing:

◦ Furniture package

In the Netherlands, houses are mostly offered empty. Together with our partners, we have put together a furniture package, consisting of a bed, table with chairs and a cupboard, so that your new employee has at least the basic facilities.

Cost: 125 euros per month

◦ Linen package

The linen package consists of bed linen, towels and tea towels.

Cost: Linen package 100 euros

◦ Kitchen package

It is also possible to receive a kitchen package. This includes the most essential items for the kitchen, such as pans, plates, cutlery, cups and glasses.

Cost: Kitchen package 100 euros

(All prices do not include tax)

Rental allowance

You may be eligible for rent allowance, which is a contribution to the cost of rent. Not everyone who rents a house or flat receives rent allowance. You qualify if you do not earn too much money. In addition, the rent must not be too high or too low either. You can check with the Tax Administration to see whether you are entitled to rent allowance.
